CARE & MAINTENANCE

Powdercoat, Chrome, Polypropylene, Polyethylene or Polyurethane surfaces: Clean with a damp, soft cloth or sponge using lukewarm water. Neutral diluted detergent (Non-ammonia based cleaning products) may also be used with lukewarm water. Ensure product is dried with clean fibre-free cloth after cleaning. Avoid scourers, abrasives, strongly acidic, alkaline cleaners or bleach as they will damage the surface, thinner based cleaners are also not recommended. Patting the fabric will break up any dust that has settled, for stain removal "spot lifter" is recommended only if followed by instructions on the can.

*The warranty does not cover damage caused by misuse or negligence of the product. General use includes use in the sitting position with all five castors firmly on the floor one time.
